

Marty v2 App v1.2.0

Releasing 2020-11-24

Main Changes

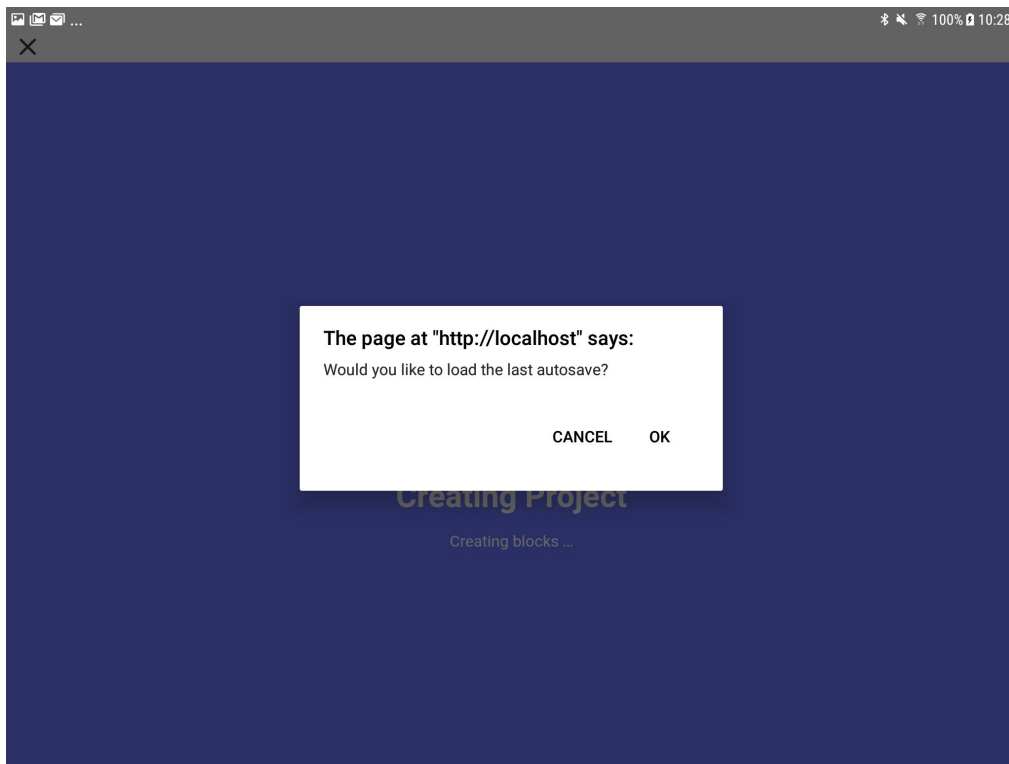

- Autosaving
- Improved save/load interface
- Code without connecting
- Battery and signal strength indicator
- Better display of Scratch on small screens

Autosaving

Code is saved automatically 1s after each change

When loading Scratch, you'll be asked if you want to load the last autosave

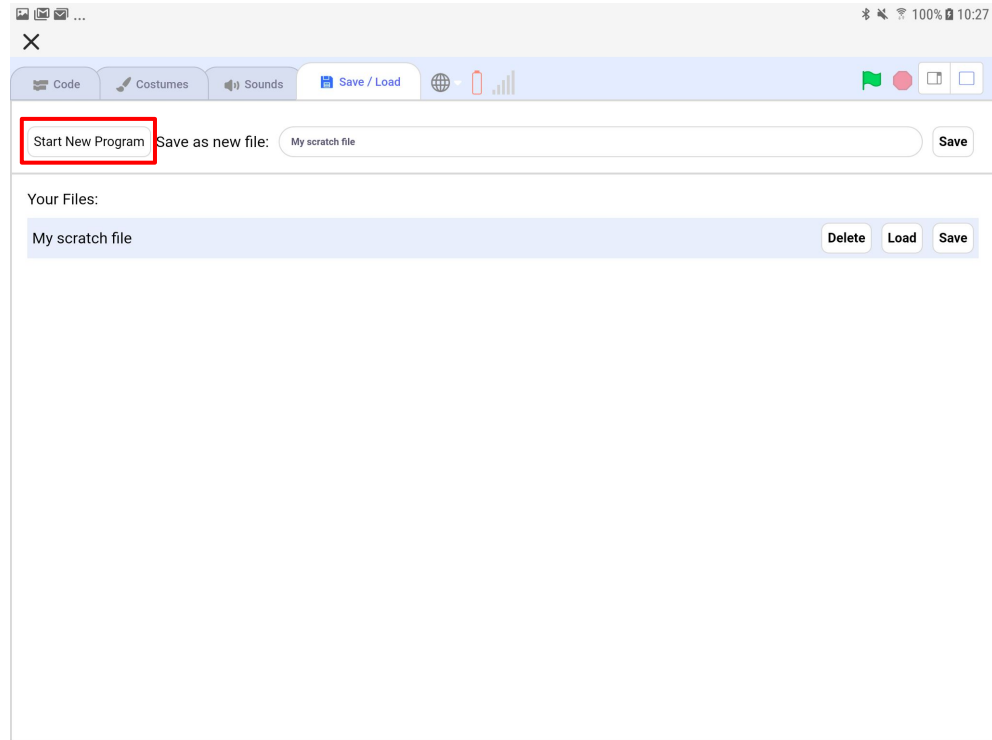

Starting from a blank file

Click cancel when asked to load autosave

and/or

Click on “Start New Program” button in save/load tab

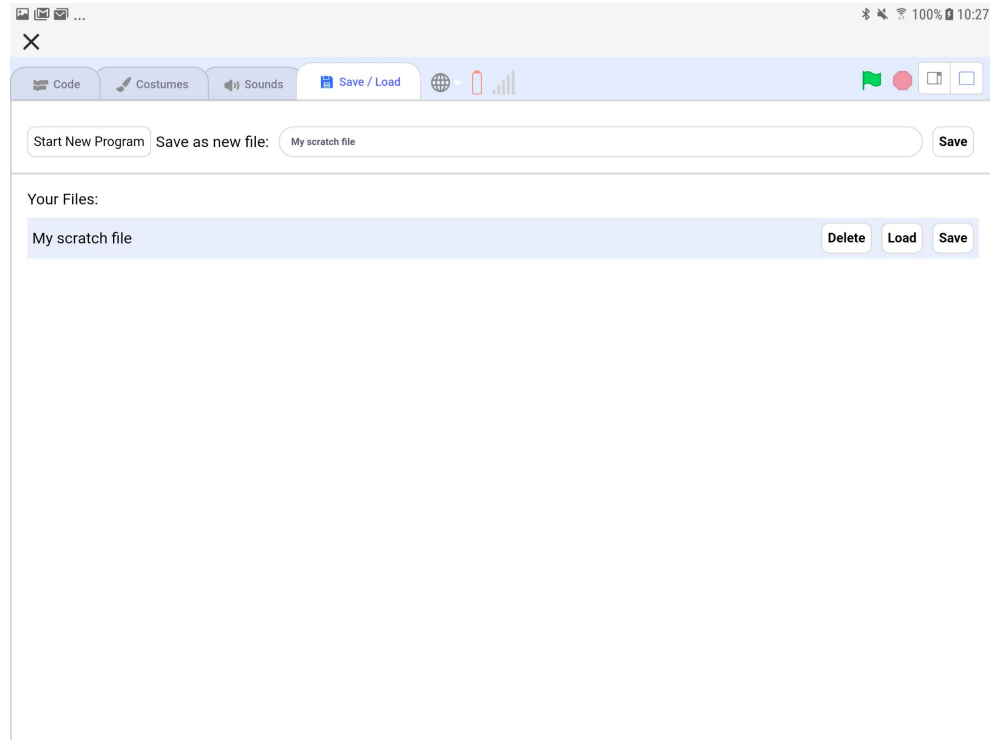

New save/load screen

Name your save files

Delete, load, save option for each

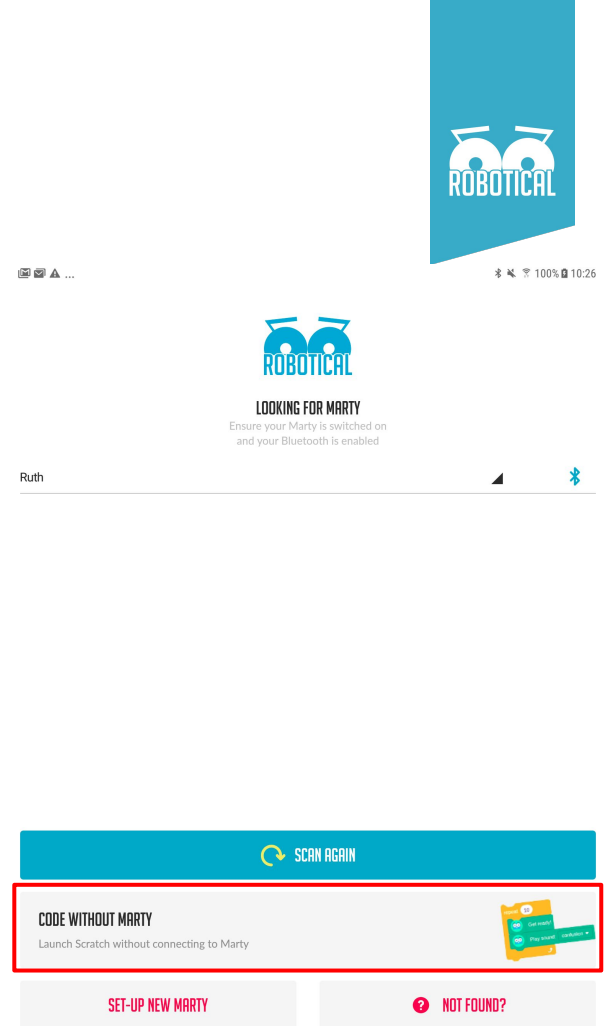

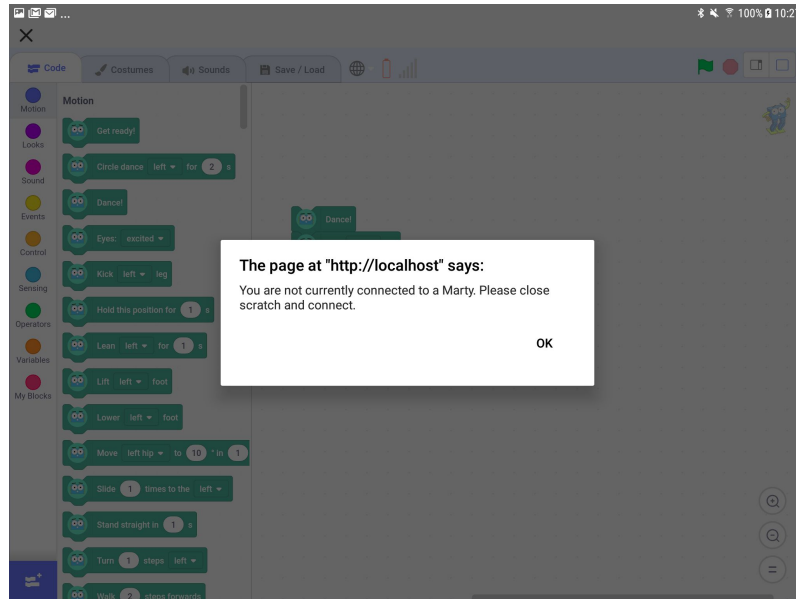

Files currently cannot be shared
between devices

Code without Marty

New button on home screen

When running code, you'll see this:

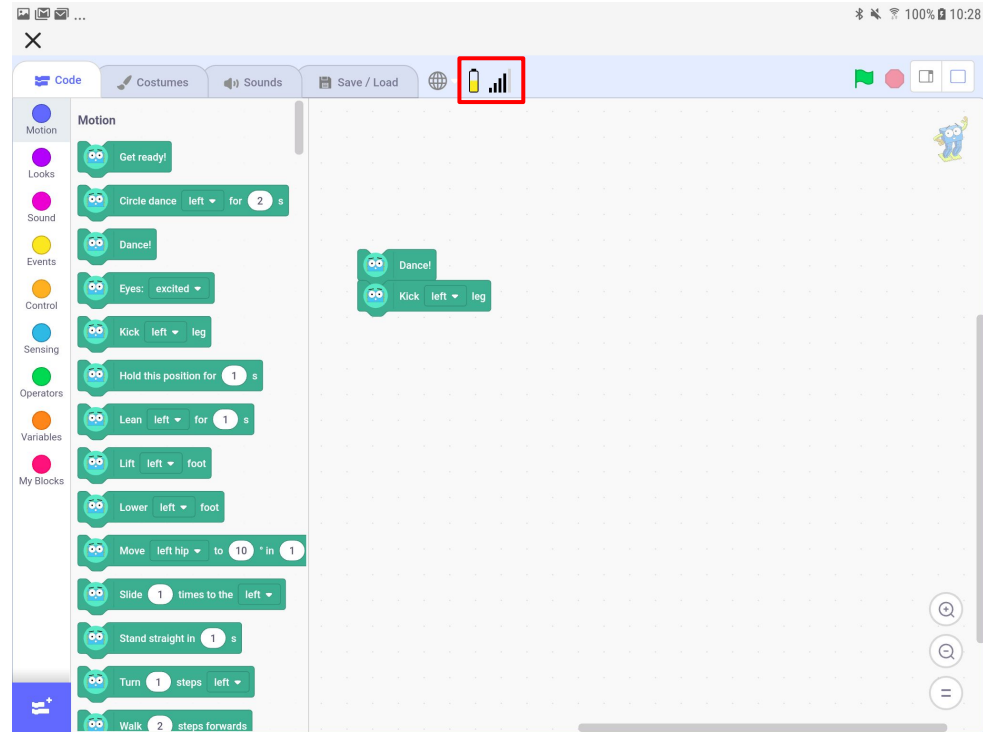

Battery and signal

New indicators

Signal strength is currently slow to react if Marty disconnects completely

Scratch on small screens

Improved display on phone screens

Vertical scrolling still required. Number input is improved but can still be awkward
